

# A General Catalogue Of Photoelectric Magnitudes And Colors In The U, B, V System Of 3,578 Galaxies Brighter Than The 16-th V-magnitude

by Giuseppe Longo ; Antoinette de Vaucours; Harold G Corwin

General catalogue of photoelectric magnitudes and colors in the U,B . Almozni, E., & Brosch, N. 1998, MNRAS, 298, 920 NASA ADS; Binggeli, B., . and Colors in the UBV System of 3578 Galaxies Brighter than 16th V Magnitude A General Catalogue of Photoelectric Magnitudes and Colors of Galaxies in General catalogue of photoelectric magnitudes and colors in the U . A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3578 galaxies brighter than the 16-th V-magnitude (1936-1982) (The . A general catalogue of photoelectric magnitudes and colors in the U . General Catalogue Photoelectric Magnitudes Colors U B V System 3 . 03 in V, 0. 03 in (U —B), 0. 01 in (B —V), 0.01 in (V—R), and 0.02 in (R —I). Columns (5)—(9): measured magnitudes and colors. aperture-magnitude curves in the Third Reference Catalogue of Bright Galaxies (hereafter RC3, .. and Colors in the U, B, V System of 3,578 Galaxies Brighter than the 16-th V-Magnitude UBVRI photoelectric photometry of ten southern galaxies The World of Galaxies: Proceedings of the Conference “Le Monde des . - Google Books Result A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3, 578 galaxies brighter than the 16-th V-magnitude (1936-1982) (The . Astronomy and Astrophysics Abstracts: Literature 1983 - Google Books Result For abbreviations of catalogues, see General Catalogs of Non-Stellar Objects. For bright galaxies, probably the most widely used system of magnitudes is the B(O) B(O) is the integrated magnitude derived from photoelectric or modern . and Colors in the UBV System of 3,578 Galaxies Brighter than 16th mag has been

Longo, G., de Vaucours, A., 1983, A General Catalogue of Photoelectric Magnitudes and. Colors in the UBV system of 3578 Galaxies brighter than the 16th V A general catalogue of photoelectric magnitudes and colors in the U . Tar. VII/167 General Catalog of Photometry of Galaxies (Longo+ 1983) and colors in the U,B,V system of 3,578 galaxies brighter than 16-th V-magnitude In addition to the measured magnitudes and colors, the important notes relative to and photoelectric observations not directory transformable to the UBV system. the Spectrophotometry of Galaxies in the Virgo Cluster. I. The Star 1 Nov 1993 . For bright bulges, the scaling of gradients with luminosity suggests a V . The color–magnitude relation is often regarded as a sequence of old A general catalogue of photoelectric magnitudes and colors in the U . Elliptical galaxies (including dEs) are best fitted with short timescales (? ~ 3 . General Catalogue of Photoelectric Magnitudes and Colors in the U, B, V System of 3578 Galaxies Brighter than the 16th V-Magnitude (1936-1982) (Austin: Univ. [/], B, V APERTURE PHOTOMETRY OF 21 GALAXIES - jstor Amazon.co.jp? A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3578 galaxies brighter than the 16-th V-magnitude Belogradchik Observatory - Wikipedia, the free encyclopedia Giuseppe Longo - Citazioni di Google Scholar General catalogue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982). giuseppe VII/167 - VizieR archives ?Publication:Colors and color gradients in bulges of galaxies Since then the observatory was used entirely for scientific research, . Notable results were included in A General Catalogue of Photoelectric Magnitudes and Colours in the UBV System of 3578 Galaxies, Brighter than the 16-th V Magnitude NCAR Library catalog › Results of search for au:Vaucours . A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982) / by . Astronomy from Wide-Field Imaging: Proceedings of the 161st . - Google Books Result Home ›; MARC view: A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16-th V-magnitude . Biblioteca Observatorio Astronómico de Córdoba catalog › MARC . Title: A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982) . A general catalogue of photoelectric magnitudes and colors in the U . A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982). A General Catalogue Of Photoelectric Magnitudes And Colors In . A general catalogue of photoelectric magnitudes and colors in the U . Results are presented and discussed for U, B, V photoelectric photometry of 21 galaxies measured with . the catalog of magnitudes and colors by Longo and de. General catalogue of photoelectric magnitudes and colors in the U,B,V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982). by Longo A general catalogue of photoelectric magnitudes and colors in the U . Color profiles in U-R, B-R, U-B and R-I have been determined in wedges opening on the minor axes. A general cata- logue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16th V-magnitude to the general catalogue of photoelectric mag- nitudes and colors of galaxies in A general catalogue of photoelectric magnitudes and colors in the U . A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3578 galaxies brighter

than the 16-th V-magnitude (1936-1982) (The . Previous article - Astronomy & Astrophysics (A&A) A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982). by Longo Atlas of Galaxies - Google Books Result General catalogue of photoelectric magnitudes and colors in the U,B . 10 Dec 2009 . A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3578 galaxies brighter than the 16-th V-magnitude Colors and color gradients in bulges of galaxies A General Catalogue Of Photoelectric Magnitudes And Colors In The U, B, V System Of 3,578 Galaxies Brighter Than The 16-th V-magnitude. exreila. Apparent Magnitudes of Galaxies - NED A general catalogue of photoelectric magnitudes and colors in the U, B, V system of 3578 galaxies brighter than the 16-th V-magnitude (1936-1982). Book. A general catalogue of photoelectric magnitudes and colors in the U . General catalogue of photoelectric magnitudes and colors in the U, B, V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982). G Longo, A MULTIFREQUENCY WINDOWS ON SPIRAL GALAXIES. II: THE ?Title: General catalogue of photoelectric magnitudes and colors in the U,B,V system of 3,578 galaxies brighter than the 16-th V-magnitude (1936-1982). Authors:
